Pittsford, VT 05763

---

Dear Pittsford Community,

The Pittsford First Response Squad, Inc. is selling Reflective 911 House Numbering Signs. Being able to find your house is important for us to be able to provide ambulance service during an emergency. It also reduces the chances of a total loss in a structure fire. Most delays by emergency responders occur because the responders can not find the scene. They know the address, but can't find it because many times the resident or business has not properly displayed their address number so it is easily visible as they approach the location.

Both sides of the sign should be visible from either traffic lane and be installed near the intersection of your driveway and the road. The bottom of the sign should be at least 36" above the ground, signs too low are more easily blocked by vegetation and snow. Please let us know if you would like a metal stake for mounting.
